A summer tour to the mountains

Altai mountains are well-known for its passes and waterfalls cascades, swift rivers in narrow gorges and snow-white peaks. Here you will go down to the mysterious caves, walk to the mountain lakes and glaciers. Also you will get acquainted with the traditions of the Altai people and touch the history of the mountainous region, where the Scythians, Huns and Turks lived.

Experiences you'll have

Active tour to the Altai mountains

According to the legends, there is "a country of happiness", called Belovodye in the Uymon valley hidden deep in the Altai mountains. While searching it, you will not only visit the unique natural places, but also get acquainted with the ancient history of this region and with the culture of the indigenous Altaians.

This tour is for those who prefer both comfort accommodation and different activities combined in one program. The itinerary includes a light trekking to mountain lakes and waterfalls, a rafting on the Koksa river and a descent to the Altai famous caves. Read about the trip first-hand experience in our [blog article](#).

Highlights of the journey:

speleo tourism — you will go down to the Denisov's cave, where the famous archaeological artifacts were found, and to the Muzeynaya cave to observe rare types of stalactites
hiking to the Altai famous lakes and waterfalls — you will see Sedoy waterfall on the Shinok river, which is considered to be the highest waterfall the whole Altai region and admire the beauty of the Multinsky Lakes — each of them has its own color
rafting on the Koksa river — you will challenge the raging rapids and admire the views of the majestic mountain peaks
historical acquaintance — the tour's itinerary actually repeats the route of the famous Central Asian Expedition chiefed by Nicholas Roerich in 1925-1928 years and includes visiting the museum dedicated to the great Russian artist and his family
cultural immersion — you will get acquainted with the life, culture and faith of the old believers living in the Uimon valley
