## Active tour to Lake Baikal

During the summer there are so few places on Lake Baikal where you can escape tourists' crowds, cars and buses. However, we have tried to find such places in order you could feel a full immersion with the wild Baikal nature.

This tour is suitable for tourists in a good physical shape, because you will have daily kayaking and hiking routes up to 15-20 km a day. You will visit the main sites of Lake Baikal, as well as reach the most secluded and picturesque places, accessible only by water or on foot.

The journey consists of two parts:

kayaking along the most beautiful part of the west Baikal coast accessible only by water. Along this itinerary there are no roads or settlements - you will be out of civilization surrounded by the picturesque taiga-covered hills and sandy beaches  
hiking in the heart of the lake - the Olkhon island. You will visit the wildest north part of the island, as well as the most popular sites, such as the Shamanka (Burkhan) cape, Urochische Peschanoye, Tri Brata (Three brothers) cape and Khoboy cape.

#### **Peschanaya Bay is made up of taiga slopes from Primorskiy**

mountain range with picturesque rocks gently coming down into Baikal water. The sandy beach of the bay is surrounded by the pyramidal rocks of Bolshaya Kolokolnya. The height of the cliffs reaches about 80 meters above sea level. This place is called "Siberian Riviera" and it was declared as natural site
