

The traditional “Nadezhda” (Rus. for “Hope”) dog sled race is held on Chukotka since 1991. We offer you to pass a part of the legendary route and get to the easternmost point of Eurasia, Cape Dezhnev, accompanied by real mushers.

Experiences you'll have

Journey to the edge of the world

In this expedition, you will see how people live in the Far North and try your hand at being a real nomad. You will learn to drive a dog sled at "musher school" and spend a few nights in the locals' homes and at the reindeer herders' camp.

Traveling across the endless tundra, the lack of "civilization" for hundreds of kilometers around, severe northern food and hospitality of the people living on the edge of the world – all this will remain in your memory for a long time!

While sledding along the route you will be accompanied by professional mushers – the winners of previous races, and the sleds will be pulled by a unique breed of Chukchi sled dog

During this expedition you will:

- cover about 300 km by dog sleds through snow-covered tundra and reach Cape Dezhnev – the easternmost continental point of Russia and Eurasia
- visit the remote Chukchi settlements Lorino and Uelen, where the traditional way of life has remained unchanged for centuries
- spend time with families of the mushers and meet natives of Chukchi and Eskimos cultures
- meet reindeer herders and learn how a modern nomad's life is organized
- try to cook reindeer meat on your own and take a master-class in lasso throwing and bone carving
- swim in the northernmost hot springs in Russia

We accept bookings for groups of 6 or more
