

The land of reindeers and walruses

Ethnotour to Chukotka

The Chukchi and Eskimos, the indigenous inhabitants of Chukotka, have been adapting their way of life to the harsh conditions of the North for centuries. Their traditional occupations are reindeer herding in the tundra and sea hunting on the coast. Today these are two distinctive cultures, in many ways similar and at the same time very different. A resident of a modern city, having got here, finds himself beyond the bounds of everything known and familiar. Join our expedition and see for yourself.
